DESAFIO

Atual modelo brasileiro de incentivo para a internacionalização que, segundo o professor, prestigia os periódicos internacionais em detrimento dos nacionais.

- 1.500.000 artigos científicos por ano
- PloS One: 100.000 artigos publicados

A stylized world map in the background, with continents colored in shades of yellow, green, and blue. Overlaid on the map are several curved, grey arrows that originate from a point in South America and point towards North America, Europe, Africa, and Australia, symbolizing internationalization or global connectivity.

INTERNACIONALIZAÇÃO OU PROFISSIONALIZAÇÃO

Estratégias eficientes de internacionalização

- **Certificação:** tem como objetivo principal garantir a qualidade dos artigos;
- **Gestão editorial:** requer um trabalho profissionalizado para gerar maior eficiência e qualidade na apresentação do artigo;
- **Pós-publicação:** ações de divulgação para aumentar a visibilidade dos artigos publicados e requer o monitoramento quantitativo e qualitativo de vários indicadores, como acesso e citação.

CiteScore 2018 methodology

CiteScore 2018 counts the citations received in 2018 to documents published in 2015, 2016 or 2017, and divides this by the number of documents published in 2015, 2016 and 2017.

CiteScoreTracker 2019 uses the same methodology with citations based on the latest 2019 data.

Frequency

3-year publication window

The 3-year CiteScore time window was chosen as a best fit for all subject areas. Research shows that a 3-year publication window is long enough to capture the citation peak of the majority of disciplines.

% International Collaboration

Relação quanto aos critérios de internacionalização (SciELO – 2016)

- Aumento da presença nas mídias sociais;
- Pesquisadores estrangeiros com funções de editores-chefes, editores associados e pareceristas;
- Artigos publicados em língua inglesa, autores com afiliação estrangeira e de artigos elaborados em colaboração internacional;
- Evolução de downloads originários do Brasil no exterior e evolução da quantidade de citações por artigos concedidas por autores estrangeiros.

A internacionalização deve ser obtida não por meio de regulamentos e políticas imediatistas, mas como parte de um processo multifacetado no qual coexistem diversas políticas editoriais, o que demanda políticas e investimentos públicos de médio e longo prazos.
